Re: Report # 180130-01

Northeast Labs has tested the biodegradation rate of plastic products containing the Organic Breakdown Plastic Additive (BDP) per the Modified ASTM D5511 "Standard Test Method for Determining Anaerobic Biodegradation of Plastic Materials Under High Solids Anaerobic Digestion Conditions" protocol. This is to certify that Lab Report #180130-01 (PP-Toast Stamp), was tested according to the Modified ASTM D5511' and shows 16.5 % biodegradation after 30 days compared to the negative control showing 0.1% after 30 days of testing.
